To Whom It May Concern:

It is my absolute pleasure to recommend Nawat to join your organisation.

I was Nawat's reporting manager when he joined us as a digital marketing intern for 6 weeks despite his educational background in Chemical engineering. This demonstrates his eagerness to try out new experiences during his college education. In my opinion, this is very commendable as he is willing to step out of his comfort zone.

With his interest in design and creativity, Nawat delivered clear and well-designed product brochures for our company's products. In the short span of a few weeks, Nawat managed to re-design our ageing marketing materials. He also helped us to design the sticker artwork for one of our new products. His technical knowledge was utilised effectively when he had to help us to design instructional manuals for our products. I was pleasantly surprised by the quality of work presented. All of this work, he carried them out independently and resourcefully without much supervision.

Nawat has a very bubbly character which brings a positive vibe to the office and he is constantly on the lookout to enrich himself. Without a doubt, I am confident that he will be a beneficial addition to your organisation.

Please feel free to contact me at +65 97766120 should you like to discuss further on my assessment of Nawat. I will be happy to share my recommendation.

Best wishes,

Elvin Ng Shengwei
Director
